Reach

The Mackie Reach™ is the ultimate all-in-one professional PA system. The advanced ARC™ (Amplified Radial Curve) array technology delivers clear, high-fidelity sound to your entire audience, and with the EarShot™ personal monitoring system, Reach™ provides an incredibly flexible built-in stage monitoring solution as well.

Plus, with wireless streaming and control over the built-in 6-channel digital mixer via the Mackie Connect™ app for iOS and Android devices, you get wireless freedom to control everything from levels and EQ to sound-enhancing tools like a feedback destroyer for amazing sound in any situation.
FEATURES:

■ 720W professional PA system with ultra-wide coverage, built-in personal monitoring and wireless streaming and control

■ Mackie ARC™ (Amplified Radial Curve) array technology utilizes a unique angled waveguide structure to provide 150-degrees of horizontal coverage to reach each and every audience member
  • Three 1" dome HF compression drivers
  • Dual 6.5" high-output mid/low drivers

■ Mackie EarShot™ personal monitoring system allows performers to hear themselves better on stage
  • Built-in personal monitoring with separate volume control allows for maximum monitoring flexibility
  • Separate speakers on each side of Reach allow for monitoring from either side of the PA
  • Also great for extending side stage coverage (up to 250-degrees total horizontal coverage)

■ Wireless streaming and control over integrated 6-channel digital mixer
  • Complete wireless mixing control via the Mackie Connect™ app for iOS¹ and Android² devices
  • Stream music via Bluetooth® and integrate into your live mix
  • All the right connections for your small band, solo act or presentation
    o 4 x XLR combo inputs for vocal mics, guitars, keyboards, etc.
    o 1/8" aux input for connected music playback from laptop or other music playback device
    o 1/4" headphone output and silent practice mode
    o Footswitch jack for instant control over FX mute
    o Link out to connect another Reach for additional power and more inputs
  • Loaded with professional sound tools to optimize your sound
    o 16 great-sounding digital effects like vocal reverbs and delays
    o 3-band EQ per channel for tonal control
    o Perform fearlessly with the built-in Feedback Destroyer
    o Choice of speaker modes ensures amazing sound for any application with the touch of a button
    o Setup in familiar venues quickly with 3 user-definable system presets to instantly recall your settings.
    o Intuitive, on-product hardware interface allows for control over most mixing features without the need for a smartphone

■ Durable carry bag for easy transportation and protection (available separately)

REACH FREQUENCY RESPONSE LEGEND

**PA Speaker Mode** – This mode is full range, but focuses on mid-range clarity where vocals often reside.

**Solo Speaker Mode** – This mode features a low frequency roll-off to get rid of unwanted thumps and adds boost and sparkle to mid-range and high frequencies. This mode is perfect for plug-and-play singer-songwriters.

**DJ Speaker Mode** – This mode bumps the lows and highs, perfect for music playback.

**Voice Speaker Mode** – This mode features a significant low frequency roll-off to get rid of unwanted thumps. It also adds boost and sparkle to mid-range and high frequencies, critical for speech applications. This plug-and-play mode is perfect for larger venue applications where speech is the primary audio source in need of clear and precise intelligibility.
